BOWSER LIVES ON

Although Folks Thought His Time Had Come.

HIS ALARMING SYMPTOMS.

What Happened to His Wife, the Tramp, the Cat, and the Dog—His Unprecedented Attack Proved to Be Only a Temporary Squall.

By M. QUAD.
Copyright, 1911, by Associated Literary Press.

WHEN Mr. Bowser came up from the office the other evening he had an air about him that puzzled Mrs. Bowser. He was quiet and subdued and yet not sorrowful. He was dignified and yet pleasant. He had found the gate open, but he did not mention the fact. He had walked a long way on the streets, where some boy had thrown it, but he did not jump up and down and take on about it.

At the dinner table he praised the coffee and steak and suggested that Mrs. Bowser that the cooks were to be raised. A tramp called while dinner was in progress and talked loudly and impudently to the cook at the door. Mrs. Bowser expected to see a rush on Mr. Bowser's part, followed by a body being heaved over the fence, but nothing

of the kind took place. A big sand-wich and a dime in cash were sent out to the tramp.

"You will have to order coal in the morning," said Mrs. Bowser after a bit.

"No springing up and shouting that she had been selling the coat out of spite—no charges that it had been poked down into the collar. Not a word about being on the road to the poorhouse."

"In discussing house today the cook somehow broke a rocker of a chair."

"It had been loose for a long time," said Mrs. Bowser.

Mrs. Bowser was perturbed. That wasn't a lion for Mr. Bowser to eat. He was a lion instead of a lamb. Had he heard of the death of a relative? Had some doctor told him that his lungs were gone? Had he lost a lot of money?

On a Mission of Peace.
Mr. Bowser usually drops his napkin on the floor and sits in his chair with a scrape when a meal is finished, but on this occasion the napkin was rolled and the chair gently handled as he quietly said:

"I am going out for a little while this evening, and I hope you won't be lonely."

"Going to a club?"
"No. I have about concluded that it's a very selfish thing for a husband to belong to three or four clubs. His place of an evening is home with his wife. I just want to walk around a bit."

"If you are in trouble let me know." "No trouble, dear. Everything is O. K."

Mr. Bowser hadn't been drinking root beer, and there was nothing in his bearing to show that he was losing his mind. But Mrs. Bowser followed him to the door and wondered if she would ever see him alive again.

On the corner was a tramp waiting to strike some one for a dime. He started for Mr. Bowser, but, recognizing him, fell back to the fence. Two months ago he had been thrown out of the door for not having a dime to pay for a room and had been chased ten blocks.

"Did you wish to speak to me?" asked Mr. Bowser as he halted.

"Nope."

"You are hard up?"

"I'm on my uppers."

"While you look hard up, you at the same time strike me as an honest man."

"I'm all that, sir."

"Then take this quarter to encourage you."

The tramp fell back against the fence and graped and shook and was fully five minutes before he could head for the moon on the corner.

Mr. Bowser's family dragged about as his wife door. He got ready to say something mean, as the two have

never been in agreement, and he was therefore knocked out when Mr. Bowser extended his hand and said:

"You don't want to lose one of the best druggists in the city, but we are going to nominate and elect you to the legislature. You are a gentleman, sir, and an honest man. I shall tell of my coat and work for your election."

The druggist was too dumfounded to reply, and Mr. Bowser went on. At the next corner he slipped and jostled an old woman with a basket. She had opened her mouth to give him life when she came his hand and he bowed and said:

"Lady, I beg of you to excuse the accident. It was unavoidable on my part."

"Lady," she echoed. "The good man takes me for a duchess," said the woman to herself as Mr. Bowser passed on, "but his kind hearted and a gentleman, and I won't hurt his feelings by calling him back and explaining that I do family work by the dozen and don't use any acid to loosen up the dirt."

Cheering the Copper.
On the corner was a policeman. He had a downcast look, and Mr. Bowser walked up to him and said:

"I think there are enough of us around here to get you promoted to round-up."

"But—"

"And then to a sergeant. We have had our eyes on you for some time, and we like the way you go about it."

"But six weeks ago, because I had to jerk a drunk around rather lively, you threatened to have me bounced."

"Just my impulsive way, you know. Didn't mean a thing by it. Hope to see you captain in a year from now. Continue right on as you are."

The next was the dairyman. He had been told that Mr. Bowser had charged him with selling sour milk and other grave things, and his jaw was set and he was ready for a row when there came an extended hand and the words:

"Good evening, Brown. Glad to see you looking so chipper. Was told to-day that you were never so prosperous. That's right; that's right. Best cream, milk and butter in the town. I wouldn't order from any one else."

"But you said I sold sour milk for weeks."

"Tooth, man, tooth. Little joke of mine. Didn't mind it. Hope to see you alderman of the ward next spring."

Not a Case For An M. D.
When Mr. Bowser got back home he was more smiling and good natured than ever. As he sat with the cat in his lap and stroked her back and called her names he was thinking of the things he had done and the things he had thought of. He was thinking of the things he had done and the things he had thought of.

Mr. Bowser continued to be good. His smile didn't come off. He hugged the cat and bade her good night as he went to bed, and he didn't close a case when the collar button loosened for five minutes. There was a tear in Mrs. Bowser's eye when she fell asleep. She might wake up a widow. But she didn't. She went to bed and went to the real living, breathing Bowser, who was out of bed and exclaiming in his good old hearty way:

"By the great horned toad, but you must have got up in the night and thrown my socks out of the window to a tramp. I've looked around for more than an hour, and I can't find hole or feet."

"Why, you've got 'em on your feet."

"Mrs. Bowser was a glad smile came to her face."

An Embryo Humorist.
Willie—May I go and play now, ma?
Mother—What! With those holes in your trousers?
Willie—No; with the boy next door.

That's Different.
"I don't believe in luck," said the optimist.
"Then how do you account for the success of other people?" asked the pessimist.—Philadelphia Record.

The Library Hog.
"Books will soon be printed on metal leaves," says Mr. Edison. Which is about the only way to get ahead of the book borrow-er who marks the place by turning down a corner.—Denver Republican.

Worse.
"Why are you downhearted? Has Miss Millions rejected you?"
"Well, not exactly."
"What do you mean?"
"Her father has."—Buffalo Express.

If Dreams Came True.
If a dream came true, what would it be? Well, for one, I would have some fun. And so would you. Parading in my undershirt. And now then I'd exult me. By twirling him. Up in the air. In pleasant weather. A kissing my toes together. Then possibly You'd see poor me Stand on my toes On some one's nose And there recite The "A B C's" of the "Dear Mr. Fling" to night.

And there's no doubt Some evening, too, You'd see me sit Beside a dearer than my dearer. Arrived in my pajama suit. Upon the whole, I wish me and you. The well our dreams don't all come true. —Chicago Weekly.

Farm and Garden

PONY ON THE FARM.

He's an "Amosie, Little Fellow," but He's a Winner.

Only the farmers who own ponies realize how these little animals do toward making farm life easier. As a rule, the Shetland is too small to be of much use, but when it is crossed with a larger breed the result is a strong, vigorous pony that not only can furnish fun for the children, but can do enough work to more than pay for its board and care. Unlike the larger work animal, a pony can be used for light tasks when it is the hardest and thus become profitable when very young.

On the corner was a policeman. He had a downcast look, and Mr. Bowser walked up to him and said:

"I think there are enough of us around here to get you promoted to round-up."

"But—"

"And then to a sergeant. We have had our eyes on you for some time, and we like the way you go about it."

"But six weeks ago, because I had to jerk a drunk around rather lively, you threatened to have me bounced."

"Just my impulsive way, you know. Didn't mean a thing by it. Hope to see you captain in a year from now. Continue right on as you are."

The next was the dairyman. He had been told that Mr. Bowser had charged him with selling sour milk and other grave things, and his jaw was set and he was ready for a row when there came an extended hand and the words:

A VARIEGATED MENU.

From the Italian Point of View Only.

In the downtown district of Chicago there is a restaurant which makes a specialty of serving a business man's luncheon at an unusually low price, the meal consisting of meat, a cup of coffee and a side dish of vegetables.

One of the customers of the place became indignant because macaroni had been served as a side dish every day for a week. Calling the manager, the aggrieved customer said:

"John, you have macaroni here too often, and it's—"

"You are right, sir, quite right," agreed the manager. "I don't want to pose as a kicker," explained the customer, "but—"

"Say so more about it, I beg," entreated the manager. "I'll have it changed at once."

Then he called to the head waiter and said:

"Tell the chef he has macaroni too often. Tomorrow we will make a change. We will have spaghetti!"—Popular Magazine.

Obliterating the Color Line.
"Foldesther was Michael's" under study and first assistant gardener. The later, a jovial Irishman, was above the average in many ways and was superintendent of the lawn and general utility man about the place. Fond of a joke, he could appreciate a good one even at his own expense.

One day Michael said to him: "Foldesther, they say if ye give a pig a watermelon to eat he can lie in the hottest sun all day and never get sun-baked, nor even feel the heat."

"No, sir; no, sir. Dat ain't so," expostulated Foldesther. "De sun affects a pig's skin 'de same as it does you or me."—Woman's Home Companion.

The Weaker Sex.
Woman is noted for her curiosity, but she never buys foil wrapped cigars.

She is noted for her love of trading stamps, but she doesn't buy off-brand tobacco to obtain the profit sharing certificates.

She is ridiculed for her fondness for bargains, but she doesn't play the penny machines.

She plays bridge, but she isn't added to the wearing of no-space collars.

SUBMARINE WRECKERS.

Device For Recovering Treasure May Be Used to Dredge Oysters.

A new type of submarine wrecking vessel, recently built in England for the recovery of sunken battleship and specie may also be utilized as an oyster dredger. The most interesting part of the plant is the submarine tube and working chamber. The former, built of steel plating, is hinged within the hull of the surface vessel.

It is five feet in diameter and ninety-five feet long. Water ballast chambers are provided on either side, and there is a passageway down which the operators may walk when the working compartment is on the bottom.

The working compartment, also built of steel plating, is about eight feet across, with large doors opening out from its bottom and with provision for the admission of compressed air. The bottom door may be opened, and the compartment is then lowered to any desired position by the use of anchor lines.

The working chamber is fitted with observation ports for investigation of the bottom of the sea, which latter is lighted up by searchlights carried within the chamber. In working on a

stationary wreck the chamber and tube would be moved preferably by anchor lines, but when a search for a wreck or other object is being made the chamber will either be suspended clear of the bottom and the surface hauled by a tug, or the chamber will be lowered to the bottom and the whole plant, surface and submerged, moved by means of a heavy mechanical derrick tractor wheel projecting through the chamber and resting upon the bottom.

This last will be the method of operation when the system is used in the pearl fisheries, for which the plant is particularly well adapted. The latter shows the compartment fitted with two large mechanically operated rakes hinged, one on each side, at the axis of the chamber. The type machine would be used on bottoms that are fairly clear of rocks, and the method of cleaning up oyster ground may be likened to that of a reaper cleaning up a wheatfield.

The working compartment is wheeled back and forth over the oyster beds by parallel links. When the rakes are closed the submarine compartment is stopped, the rakes are rotated and elevated by machinery within the chamber, and the oysters are dumped into a car which runs on rails on the top and sides of the tube, as shown. The car being lifted is hauled to the surface and dumped of its load.

Economy of Concrete Bridges.
In the case of a steel bridge the labor and material are seldom found in the locality in which the bridge is built, whereas in the construction of a concrete bridge most of the labor and materials may be obtained at the site, and the greater part of the money expended for the bridge remains in the community.

This is a valid reason for the use of concrete in bridge construction, and the fact that concrete is a more economical material under certain circumstances may pay from one and a half to two times as much in first cost for a concrete bridge as for a steel bridge.

There is no reason to believe that this represents the situation as it pertains to the average bridge instead of being the exception. How rarely more economical to use concrete where the cost does not exceed steel, which has frequently been the case in many sections of the country, is some instances bids for concrete being lower than for steel.

Cement Age.

Automatic Train Stop.
The new automatic stop of two English inventors is arranged to shut off a stream of a locomotive and apply the vacuum brake without aid from either engineer or fireman. An inclined plane is fixed between the rails, and when the signal is set at danger the inclined plane is so raised that it comes in contact with a lever in the engine that acts on the steam regulator and opens the brakes throughout the train. In the tests made it has been shown that a train could be quickly brought to a stop in a fog or storm like the usual signal.

Properties of Ambergis.
The essential characteristic of ambergis is the porous and pearly color, similar to that of musk. It is so powerful and so diffusive in its perfume that the most minute quantity of it is perceptible by any other strong scent is still perceptible. Its chief component is a fatty matter called ambrosin, which is got by boiling ambergis in alcohol.

How to Clean Hair Ribbons.
Ribbons—the children's hair ribbons—are excellently cleaned by a bath of ammonia and gasoline and then stretched tight on a marble or glass slab and left to dry. To remove the little particles which are non crosswise with a soft brush after it is on the marble or glass. The ribbon needs to be very wet or it will not stick tight to the surface of the marble or glass, and this drying in a glass dish of water is what takes the place of ironing. A hot iron should never be put on silk of any kind. There should always be a soft cloth or tissue paper between the iron and the silk.

Children's Parties.
Women noted for being successful hostesses say that they believe in giving children's parties, that nothing brings out the boys and girls so well as that nothing makes them so well possessed and so well able to understand each other.

Points for Mothers

Clothes Suggestions.

The fancy for frocks of a fabric is one that the little home mother who has to nurse carefully a minute child finds quite irksome. Small girls grow out of their garments, and, so, no matter how delighted one may be to see the children growing big and healthy, there is another aspect not to be neglected, which is almost equally appalling. The clothes run up the little arms, the skirt stops short at a point which mammae strongly disapprove, and the waist becomes tight enough to suit a fashionable young lady instead of an energetic schoolgirl.

Quickly as a pocket two small frocks may be made into one large, if needs be, or a piece of new material may be ingeniously incorporated with the dress that has become too little for its wear.

In the former case take one of the frocks to use as the under robe and the other as the outer garment. Use the lower part of the skirt mounted either plain or tucked upon a foundation. The upper part of this same skirt will serve as the bodice and the sleeves. From the second frock cut away the bodice part and lift up the skirt, the collar, the belt and the sleeves; cut round foot and hem in wide scallops. If there is not enough material the upper part above the waist may be cut from the sleeves.

If fresh material is used either the new part may make the tunic and bodice, while the old is utilized for the belt, the collar, the belt and the sleeves, or vice versa, a vest or plastron being introduced to relieve the tightness of the corset. A striped or spotted material such as that used with the old fabric, and with this novel trimming the little girl will feel as if she had quite a new frock.

Teach Children Care of Nails.
If the little girl's finger nails are filed for her once a week she may easily be taught to clean them for her hands and nails. Children should be taught that the care of the hands is a necessity. Many parents think that the hands of a child do not become soiled as much as those of an older person. But they do; indeed, more so. The hands of a child are frequently soiled by having such things as much as the school books, pens, pencils, papers or toys they handle are frequently covered with dirt. The hands of a child are frequently soiled by having such things as much as the school books, pens, pencils, papers or toys they handle are frequently covered with dirt.

Every two weeks a young child should have her hair cut and thoroughly shampooed. And if at any time the little one should be so unfortunate as to have her head infected by a scab, the mother should have the hair cut and the scalp washed with a mild soap and water. The third day, to make sure all infection has taken place, and on the following day give the head another shampoo.

Amusement For the Little Folk.
There are more children made happy by paper dolls than by any other amusement. Paper dolls can be made from the pictures in a children's paper, and these are picture books that show not only children, but even grown people. The pictures can be cut out in scrap books and arranged by the children under the direction of their elders and are fascinating. Sometimes the magazines, too, show lovely pictures of children and house decorations, pictures of porches, furnishings and drawing room sofas and chairs, and a big blank book, a pair of scissors and some paste will help the little ones to have their paper houses arranged according to the best method in which they are planned in the magazine.

It is not only useful in keeping little ones employed, but serves to help them, too, in their first observation of order in a home.

AMERICAN CORN.

In its sturdy vigor it is representative of our people.

Indian corn is a native of America. The Indians cultivated it when the white man first came, and their legends carried it back to the Mayan, or great spirit, from whom it came as his choicest gift to man, says the Washington Post. Without it the earlier settlements would have perished.

It grows in all parts of the United States and in its every stage presents varied charms and attractions, more alluring to the eye than varying loads of wheat—its close, white cotton or the splendid sunny ear, with which it vies in statelyness and ornaments in its gorgeous and changeable tones of green.

One-third of the human family uses on rice, but it is not the third that counts. The dependence on everything to the desert dweller. He is corn to the American although often indirectly.

He eats it in the cob, and off, makes of it innumerable kinds of food and turns it into bags and cattle.

In its sturdy vigor Indian corn is representative of the nation. It strikes its tap root deep into the earth, while the lateral roots reach out in every direction. It drops under the long drought, but given the rain it strikes toward the sun. It yields a harvest that outdoes the gloomy prophets to shame.

THE BRITISH MUSEUM.

Care With Which It is Guarded From Fire and Theft.

It is very doubtful whether the British Museum could ever be burned down. It is more likely to be snuffed first. There is a very strict watch over the museum, and there is a large force of men, day and night, to guard the museum.

Every policeman on the streets of London, too, is also a fireman, being especially trained before he takes up his duties. There is not a corner of the museum that is not guarded by a man.

"Mr. Hill, I can tell you just how it was. You were not so far from the door as you thought. You were just outside the door when the fire started. You were just outside the door when the fire started. You were just outside the door when the fire started.

Not only in this little chance of the museum being burned down, but also in the fact that it is not a museum, but a place of business. It is a place of business, and it is a place of business. It is a place of business, and it is a place of business.

Mr. Hill, I can tell you just how it was. You were not so far from the door as you thought. You were just outside the door when the fire started. You were just outside the door when the fire started. You were just outside the door when the fire started.

Mr. Hill, I can tell you just how it was. You were not so far from the door as you thought. You were just outside the door when the fire started. You were just outside the door when the fire started. You were just outside the door when the fire started.

Library for the Blind.

Last spring a brief article on the Canadian Free Library for the Blind appeared in these columns. It was stated that the library, which was to be located in Toronto, had been established in 1901, and that it was now open to the public.

The Canadian Free Library for the Blind is a branch of the Canadian Library Association, which was founded in 1901. It is a branch of the Canadian Library Association, which was founded in 1901.

What Is the Selling Price?

Wholesale price \$1.00
Cost of doing business 22%
Retailer's profit 10%
Retail selling price 1.32

Having your percentage on selling price the answer is not far.

If you will answer this question, or ask how to answer it, we will send you free a 48-page book for retailers.

It will give you some information on getting at the whole cost of doing business.

Will explain how successful retailers are getting every day, a statement of what each clerk is worth in profit.

Will show you how to know every day, all the year around, what is on your shelves—which does much success-producing.

Why shouldn't you have at your finger's ends as much success-producing information as any other retailer?

We'll send the book to every retailer who tells us how he figures the problem.

Figure it on your letter-head or ask for the book.

Burroughs Adding Machine Co.

The Spots

Is there any spot on earth that you long for at times with a great yearning?

Now, Man,—Yes, there is. When I draw cards to three across the board I find that I yearn for with all my heart.

But the lady had left him.

STORIES OF THE PHILIPPINES.

Mrs. (Rev.) W. H. Clarke, Burlington, Ont., writes:—"I wish to give this interesting testimony to the great value of the Philippine Islands."

After several years of investigation of the forests of the Philippine Islands, Dr. H. N. Whitford, I. m. b. e., has made a statement of his findings.

Dr. H. N. Whitford, I. m. b. e., has made a statement of his findings. He has found that the Philippine Islands are a great source of timber, and that the forests are a great source of timber.

Dr. H. N. Whitford, I. m. b. e., has made a statement of his findings. He has found that the Philippine Islands are a great source of timber, and that the forests are a great source of timber.

SPANISH VENGEANCE.

Fate of a Faithless Sola in the Reign of Emperor Charles.

It was the early days of the reign of the Emperor Charles, when the Spanish people, ever jealous of their rights, became infuriated at a submission to certain viceroyal orders.

Without obtaining redress for popular grievances, the people, the representative of Segovia, being a bold and daring man, returned to his native city to defend his conduct and, according to custom, announced his feelings to the church that he might give an account of his actions in the courts.

But the multitude, infuriated at his conduct in attempting to justify conduct they deemed execrable, burst open the doors of the church and, seizing the Torrediano, dragged him through the streets to the place of public execution.

The deed and chaos came forth with the holy sacrament to awe the mob; the monks in the monastery, by the luckless deputy was dragged, prayed on their knees that his life might be spared, or, at least, that he might be allowed time for absolution; but, without regard for humanity or religion, they hanged their victim up head downward on the common gibbet.

The Old Folks

find advancing years bring an increasing tendency to constipation. The corrective they need is

"NA-DRU-CO" Laxatives

Entirely different from common laxatives. Pleasant to take, mild and painless. A tablet (or less) at bed-time regulates the bowels perfectly. Increasing doses never needed. Compounded, like all the 125 NA-DRU-CO preparations, by expert chemists. Money back if not satisfactory.

25c a box. If your druggist has not yet stocked them, send 25c, and we will mail them.

NATIONAL DRUG & CHEMICAL COMPANY OF CANADA, LIMITED, MONTREAL 22

Constipation is the root of many forms of sickness and of an endless amount of human misery.

Dr. Morse's Indian Root Pills,

thoroughly tested by over fifty years of use, have been proved a safe and certain cure for constipation and all kindred troubles. Try them.

25c. a box.

An Awful Scare

During those periods against known as mad-dog scares, everyone loses his head except the dog and usually his owner. A crowd had gathered at a street corner to watch a handsome fox-terrier that was running about with his nose in the air. White froth was issuing from the dog's mouth.

"He's mad," yelled a fat man of the crowd who stood in the middle of the group with wide-open eyes, either to stare or too frightened to move. At this juncture the policeman arrived. A dozen voices began to tell him that the dog was mad; that it must be killed; that it began to snap at children; that it began to bark at a pool of water, and how best to shoot it.

A tall, quiet-looking man stepped through the crowd and started toward the dog. A dozen men yelled at him, but he went on. He picked up the dog and started out of the crowd.

The policeman approached him with a look of surprise. "What is the matter with that dog?" he asked. "That dog is mad," he replied. "Look at the foam coming out of its mouth."

"Foolish!" he said contemptuously. "That's a cream puff he was eating."

Would he be Christmas?

Tommy, who himself isn't content with having horseless carriages and wireless telephones. Now that the Christmas folk are beginning to talk of a Santa Clausless Christmas.

The Tall and Aggressive One—Excuse me, but I'm in a hurry! You've had that phone twenty minutes and not said a word.

The Short and Meek One—Sir, I'm talking to my wife!

THE HEART

If the blood is poor and filled with the poisons from diseased kidneys or inactive liver, the heart is not only starved but it is also overworked. There are many conditions due to impure blood—such as dropsy, fainting spells, nervous debility or the many other conditions, which "liver-cures," white swellings, etc. All can be overcome and cured by

Dr. Pierce's Golden Medical Discovery

This supplies pure blood—by aiding digestion, increasing assimilation and imparting tone to the whole circulatory system. It is a heart tonic and a great deal more, having an alternative action on the liver and kidneys, it helps to eliminate the poisons from the blood.

To enrich the blood and increase the red blood corpuscles, thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery and do not permit a dishonest dealer to insult your intelligence with the "just as good kind." The "Discovery" has 40 years of cure behind it and contains no alcohol or narcotics. Ingredients plainly printed on wrapper.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of wrapping and mailing only. Send 50-cent stamps for the French cloth-bound book. Address: Dr. R. V. Pierce, Buffalo, N. Y.

Economy in little things is just as important as economy in big things

EDDY'S MATCHES

will answer one of your "economy questions." 60 years of constant betterment has brought them to such perfection that one Eddy Match does the work of several others of inferior make.

ALWAYS ASK FOR EDDY'S.

In Backache the Kidney's Speak

It is their way of calling your attention to the fact that they are not in perfect condition. Many people, however, ignore repeated warnings. They say, "It's only a backache," and they go on. But the kidneys are the great filters of the body. If they are not working properly, the whole body suffers. Backache is often a sign of kidney trouble. It is a sign of kidney trouble. It is a sign of kidney trouble.

They contain Nature's own remedies. They lift the kidneys out of their temporary position and return them to normal activity. Sold everywhere at 25c a box or mailed direct.

Happenings in and Around Blairmore

Mrs. V. H. Wetmore is visiting in town.

W. J. Budge was in town on Monday and Tuesday.

Dr. J. E. Wright, of Pincher Creek, arrived Saturday in town.

Mr. Bigelow reports a large sale of Kodaks during the past week.

Rev. E. Edwards, of Livingstone, was a visitor to Blairmore on Sunday morning.

E. L. Crain, of Macleod, is the new addition to the mechanical department of this establishment.

Charles Chestnut has leased the west store in the Budd block where he will conduct a restaurant business.

Mr. A. Bryden is the new cook at the Blairmore hotel and all the boarders speak in complimentary terms of the cooking.

Rev. J. F. Hunter went to Lethbridge on Saturday and conducted services in the Baptist church there on Sunday. He returned home on Monday.

Ex-Mayor Cameron came down from Coleman on Sunday morning and spent the greater part of the day taking in the sights of this beautiful burgh.

Misses Latta and Sheppard, of Cowley, have taken over the business until recently conducted by J. S. Murray, and will conduct a millinery department in conjunction with the fruit, confectionery and ice cream store.

C. D. Ellis will not visit Australia until the return of Dr. Chapman, the noted evangelist; or in other words, until the atmosphere cools off. "Times are very dry in the southernmost of Britain's domains and C. D. thinks he would find it difficult to bear (beer) up."

The new branch of the Royal Bank of Canada was opened here on Monday and there was quite a hobby as to who would be the first depositor. However, that lot fell to Mike Rasse, who happened to have his hip pocket stuffed with the valuable paper and his big name now adorns the first page of the bank's ledger. Bravo, Mike!

First Presbyterian church of Blairmore, Rev. A. S. Tod, B.D., pastor. Subject for morning service next Sunday will be, "Now and Afterwards," evening subject will be "Church Union," at the close of the evening service a vote will be taken on the important matter of the proposed union with the Methodist, Presbyterian and Congregational churches. A large attendance is urgently requested. Adult Bible class at 3 p.m., when the study of St. Mark will be drawn to a close. The Young Peoples' Guild will hold its regular weekly meeting on Monday at 5 p.m. The subject for the evening will be "Prevention and Cure of Crime" and will be taken by Dr. Baker.

Evangelistic Services at Central Baptist Church

The evangelistic services at the Central Baptist church are casting an elevating influence on the life of this community which influence has already become quite evident.

Rev. W. A. Lewis, of Lethbridge, is the principal speaker at these services which were commenced on Wednesday last week and which are being continued this week up to Friday. They will be concluded on Sunday. Considering the many other attractions going at Blairmore every night, a goodly number attend the evangelistic services. Mr. Leavitt is an interesting and pleasing speaker and many listen with rapt attention while the fervent gentleman delivers his soul-saving message.

EDITORIAL NOTES

"Ye editor" takes great pleasure in announcing that during his absence among the sun-tanned Californians and the rebellious Mexicans, the services of a competent literary artist has been engaged. The writer hesitates for the readers many bright gems of thought as the new, capable and impartial literary light engages in solving the deepest problems of the public press.

A man is never too old to learn that he knows a lot of things he should forget.

Several days before the Japan current changed its course, some of the old "sea dogs" said this was going to happen. But in spite of all this, no one seemed to heed the counsels to make forecasts regarding the future condition of the sea of matrimony or to say "what is in store for the old 'mermaids' before Father Time robs us of 1912."

Shortly after the dominion elections last fall, some of the local Conservatives, who got heated up over their party's victory, agitated for a general election in this province, but we notice that those same hot-headed politicians are now suffering from cold feet. What has Borden done to cause an increase to his following in this province? Nothing. An echo answers "nothing."

The public schools deserve more attention than is usually given them. Parents, as a rule, regard their entire duty in this connection discharged in paying their tax and properly clothing and sending their children to school. There is reason to fear that many look upon the school room as a nursery to relieve them of their troublesome children. The public schools cannot accomplish the full measure of their possibilities unless the parents join with the teachers in attention to pupils.

Philanthropy has become a contagion in Newfoundland and immense benefactions have been recorded of late that attest to the real philanthropic spirit which is hovering over the ancient isle. Among the latest is the offer of the president of the Reid railway to construct and equip a sanitarium for the care of consumptives, to be located in the city of St. John's and to involve a cost of \$50,000. Following this the two brothers of the president promise to erect and equip sixteen hospitals at various points in the island at an average cost of over \$3,000 each.

Patrick claims to be the most widely advertised being in all the English speaking countries and that this fact causes the land of the Shamrock to be talked about more than any other civilized country. Pat-

rick gives as his reason for this, that an abbreviation of his name is on nearly everything that is patented. We think that "Pat" is claiming a little too much and that he is indulging too freely in the blarney. Judging from every day observations we are led to believe that his satanic majesty, the Devil, is a long distance in the lead when it comes to real popularity, and unless hell is somewhere in Ireland "Pat" has still another guess coming to him.

Idle words are often the cause of inestimable mischief. A good name is rather to be chosen than riches. But the tongue of slander may rob one of his good name and leave him poor indeed. What havoc has been made of the peace and happiness of individuals, of families, of neighborhoods by an evil tongue! What wars and trifles are swelling into importance by repetition, and thus difficulties which a single word might have explained and healed, increase in magnitude and at last become incurable. The tongue will be evil while the heart is wrong, for out of the abundance of the heart the mouth speaketh. The best thing for an evil tongue is a new heart, but as even the best of us are sanctified in part, we must adopt such a remedy as will meet the evil from whatever source it may come; and this is the remedy: Take heed what ye hear.

We are pleased to note that the town fathers have made up their minds to improve our main street. We hope that this will be followed by some action on the part of provincial government towards improving the road through The Pass. To say the very least, the government road along these parts is in a deplorable, disreputable and dangerous condition, and the party in power deserves to be strongly censured for its entire neglect in this connection. A good road through The Pass would be a great asset. Nothing pays better than good roads. It costs something to secure them, but they are the arteries which connect city and country, along which the currents of comfort perpetually flow. Bad roads, full of chuck holes, kill time, team and temper.

Blairmore Board of Trade Meets

A meeting of the Board of Trade was held in the Beebe block on Tuesday evening. There were present: vice-president W. A. Beebe, secretary T. B. George, A. A. Sparks, J. Menard, J. G. Smith, L. P. Roberts, J. A. McDonald, R. M. Brisco, L. Dutil, D. A. Sinclair and J. D. S. Barrett.

Brisco - McDonald - That the town council be asked to instruct the police to collect all band instruments and hand them over to the Board of Trade.

Smith - Sinclair - That whereas, in our opinion, an electric railway connecting up the various towns and villages in the Crows Nest Pass would prove of inestimable benefit to all merchants, land owners and other residents of the district, therefore,

Be it resolved that we, the Blairmore Board of Trade hereby wish to place ourselves on record as approving entirely the installation of such railway, and recommend that the provincial government and various towns, villages and land owners along the route give such a project their every support. - Carried.

Smith - Menard - That the secretary write the fire insurance directors at Winnipeg asking for a reduction in the insurance rates for Blairmore. - Carried.

T. E. Werry, of Brandon, has been appointed general secretary of the Alberta Sunday School association.

Good Company**For Blairmore**

The Jeanne Russell Company who come to the opera house for an engagement of three nights starting Monday, February 19th, are making a most decided impression wherever they appear this season. They recently went into Wenatchee, Wash., for an engagement of five nights but made such a hit in the city that they played for three consecutive weeks. The following is what The Wenatchee Daily World has to say of the Company:

"Because holiday week is considered the poorest of the year for the show business generally and because Wenatchee is considered such a good show town that it gives capacity business to a worthy attraction even in holiday week, this city is having a treat this week. Miss Jeanne Russell and her company of seventeen players are at the Wenatchee theatre. Last night they opened a six day engagement, and the remaining performances are half as good as the first one, they will be worth three times the price of admission and a packed house each evening, as it was last night.

"That the dramas to follow will be as good as the first, was vouchsafed by Ray E. Brandon, one of the brothers owning the attraction, when he made a neat little curtain speech. Without accepting the testimony of perhaps a prejudiced party, we have the facts before us that the company of seventeen people last night demonstrated their superb talent and that they have scenic equipment to adequately produce their plays. On top of that we are to see the following array of dramatic masterpieces: 'God's Country' tonight; 'The Ticket' on Wednesday night; 'The Devil' Thursday; 'Two Married Men,' the feature play of the week Friday night; 'The Half Breed,' Saturday.

"Miss Russell is simply delicious. Her opportunities for display of dramatic power were not many last night, but she was natural and showed fidelity to high ideals in appearing natural where the lines called for nothing more. So many stars are jealous of their position and insist on plunging themselves into the spotlight in an attitude beckoning for applause even though the situation warrants nothing but the commonplace. Two or three climaxes last evening gave a foretaste of Miss Russell's capabilities, and the public should be fully warned—watch that woman—there will be something doing on that stage this week before she finishes the repertoire she announced.

"Mr. Brandon captured the crowd as an American who knew a racial whether in a legislature or in a European hotel. Frank Rice demonstrated that he is a good actor and during one act sang a song that revealed him the possessor of a delightful basso cantate voice. His first selection was a Scottish ballad, and as an encore he sang a popular bass solo. Two young ladies of the company gave pleasing songs in intermissions.

It is an unusual thing to say, but every member of the company fitted into his part as though it were written for him or her. There were no aggravating lapses of memory, no uncertainty as to how a thing should be said or done, no amateurishness anywhere manifest. It was what might be called a smooth production. Evidently there is a stage manager directing the Russell company, who has no patience with scamp work, who insists that every line shall be spoken and acted just right.

"To a long suffering public this is indeed refreshing. Appreciation was shown by round after round of spontaneous applause and by the many remarks overheard as the audience was leaving the theatre. "That was the best show I ever saw in this town," said one lady to her neighbor.

"Seldom have I seen the performance equaled anywhere," re-

Blairmore "Teens"**vs. Frank "Teens"**

The Blairmoreites was lashed by our youthful reporter on Saturday afternoon just as the match between the Frank and Blairmore junior hockey fans was being arranged on the ice, and here is a synopsis of his report:

"Turner, the referee, drops a piece of rubber on the ice between two paddles and then steps backwards and fumbles over a lady's glove that has fallen out of Frank Binda's hip pocket. The piece of rubber is chased by a fat or hungry-looking kid from all over the ice and received several painful jabs and two big uppercuts dealt by some boys who were fastened to the top end of the paddles. Gee, they looked funny. Then the rubber thing gets crossed up and down the ice, settling everything like a hot iron. Joe Netekich, in the corner toward Seattle, jumped to his feet and crept towards his chum on the Dawson City side and both fell out, one tumbled in the other, and the gate-keeper was thus saved from what would have been a hard blow if the tough thing had hit him. The gate behind the Frank boys seemed to belong to the piece of rubber, for the Blairmore boys could not pass it. Gee, that's although they tried. I think the piece of rubber must have passed by that gate-keeper a hundred times or more. I counted eleven and got tired counting. Dawson and Green, the men who made the ice, stood on the fence posts and they hoop-laved as loud as they were able; and the Blairmore girls, they hoop-laved for Blairmore. Gee, didn't their mouths hoop law! The Frank boys seemed to bluish up at every stage of the game, and before they stopped blushing they clapped together and carried the piece of rubber up to the Blairmore gate, where they asked permission and were allowed to pass in two times. Gee, the Blairmore boys looked discouraged. The Blairmore boys asked some of 'em if they cared to take hockey lessons, but they all declined and blushed. Gee, but they were red. Probably the atmosphere had some effect on 'em. One had his head turned red all over—think it must have been the reflection from the other boys' faces when they got so scared of the rubber object moving so 'perpetually' around their gate. The Frank boys used to try to pin dirt, and so did some of the Blairmore boys, so they were pined up on the fence where the pretty Blairmore girls stood all round 'em. Gee, I never thought the Blairmore girl was so pretty. Mike Ross and George Patterson seems to like the girls because they used to do most of the dry work. There was lots of good play on both sides, and the Blairmore boys say if they are allowed to wear the skirts they can beat the Blairmore girls to a trifle."—A. B.

plied her friend who has travelled widely.

"I'm going every night this week," announced another wife to her husband. "I'm just hungry to see something worth while and I am not going to miss a chance like this."

"All right," was the laconic submission, with the air of a martyr somewhat like the proverbial father who must attend the circus in order to take his small boy."

LOTS!

**The North-West Quarter of
Section Nine
Adjoining The Town of Coleman
Will be subdivided at once
into lots and placed on
The Market.**

Lots 50 by 100 feet, will be sold at from \$125 to \$200.
Terms easy and suitable to Purchaser.

Acres Lots will be sold for \$300 and parcels containing
five or ten acres will be sold on easy terms.

Those applying first will get their choice
when survey is completed.

This QUARTER SECTION has been purchased from
the Calgary and Edmonton Land Company by

JOSEPH GRAFTON
J. H. FARMER

**A RARE OPPORTUNITY FOR
LIVE INVESTORS**

Lake City

Is the name of the Western Terminal Point of the proposed
Crow's Nest Pass Electric Railway and is already tapped
by the Pass line of the C. P. R., while the G. N. R. has
already approached to within a few score of miles and must
eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few
miles east of the provincial boundary between Alberta and
British Columbia, and just north of the international line.
In reality, it is at the top of Canada where the majestic
Rockies tower in serene magnificence over great chasms and
numerous floods, reflecting their presence on the waters of
this beautiful lake. Here also are afforded the very best
trails for the daring mountain climber and for huntsman
who desires to contravert the quiet ways of the Rocky Moun-
tain goat, sheep, deer or elk, which are the monarchy thereon.
In close proximity are numerous timber, mineral and fuel
resources, development of which is now in its initial stages.
These resources include gold, quartz, coal, iron and pulp wood.
Crow's Nest Lake has long been looked upon with promise
as an admirable location for health and tourist resorts, and
but now this promise is being realized. Plans for hotels, etc.
are being arranged, as well as boat houses, and the most
modern pleasure yaws will soon glide over the surface of
this beautiful lake.

But a few weeks ago lots were placed on the market, and
the agents have had their hands full attending to purchas-
ers. Prices run from \$150 up. For further particulars
apply to the agents:

THAT AWFUL BACKACHE

Cured by Lydia E. Pinkham's Vegetable Compound

Morton's Gap, Kentucky.—"I suffered two years with female disorders. My health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and would have such dragging sensations I could hardly bear it. I had soreness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and Liver Pills and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have the backache any more. I think my medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish Mrs. Ozine Woodall, Morton's Gap, Kentucky. Backache is a symptom of organic weakness or disease. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so surely as Lydia E. Pinkham's Compound.

Write to Mrs. Pinkham, at Lynn, Mass., for circular and advice. Your letter will be absolutely confidential, and the advice free.

She Didn't
A Baltimore lawyer had an office boy who was given to telling in other offices what happened in that of his chief. The lawyer, in passing, so turned to discharge him, but, thinking to keep him from a similar fall in the future, he commended the boy wisely on his departure.

"Willie, you must never hear anything that is said in the office," he said. "Do what you are told but turn a deaf ear to conversation that does not include you."
A happy inspiration! He would see that the stenographer learned the same lesson. In passing, so, turning to her, he said:
"Miss Brown did you hear what I said to Willie?"
"No, sir," she returned promptly.

In the treatment of summer complaint the most effective remedy that can be used is Dr. Williams' Pink Pills for Pale People. It is a standard dysentery cordial. Many people employ it in preference to other preparations. It is a highly concentrated medicine and its sedative and curative qualities are beyond question. It has been a popular medicine for many years and thousands can attest its superior qualities in overcoming dysentery and kindred complaints.

"How's your brother?"
"Not very well. He was playing with another little boy, seeing who could lean the farthest out of the window, and he won."

The Elitist Father
"I'll bet that man is the father of six or seven children."
"Why?"
"Because, if he had less than three he'd be bragging about them."

Your hands won't get chapped this winter if you use SNAP.

Milking, scouring the separator and clearing up the stables, get the dirt and grime ground right into the skin.

Coarse soap and hard rubbing only chafe the skin. SNAP cleans and purifies because anti-septic—gets out the dirt without harsh rubbing, and is soothing and healing to the skin.

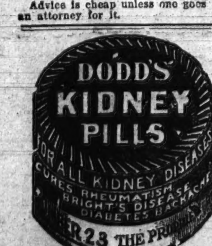

120 5c. a can.

Not Too Old Yet.

Professor—"Young man, I am seventy-nine years old and I never smoked a shred of tobacco in my life."
Student (puzzled)—"Well, sir, you're not too old to learn, I assure you. Cato learned Greek at the age of eighty, you know."

England possesses more diminutive railways than any other country, for there are said to be several lines there that find one or two locomotives sufficient for their successful operation.

Advice is cheap unless one goes to an attorney for it.

THE CALGARY SHOPS

Immense Railway Shops to be Built by C.P.R. to Handle Work on Western Division

Canadian Pacific Railway officials state that now that the contract for the Company's new Calgary shops has been let a statement will soon be made as to just what will constitute the new car repairing plant. It is of course, known that the shops will occupy an area of 150 acres of land, and will employ about 500 employees but other than the shops will resemble those of the Company at Montreal, no official statement has yet been made as to the buildings to be erected. It is probable, however, that there will be at least twenty buildings, including freight, car, passenger car, and locomotive repairing shops. The locomotive shop, will alone it is said, cover six acres of land.
The machinery which will be installed in the new shops will be of the very latest design and the tool equipment will be very complete.
The Angus shops at Montreal are equipped to provide for repairs to the Company's rolling stock—also the shops at Winnipeg, including some 500 locomotives, and to construct new cars and locomotives for the entire service. These shops turn out an entire new train every day. The shops at Calgary will be in the best possible state of efficiency. A few years ago the Angus shops at Montreal and the shops at Winnipeg were sufficient for this work but the C.P.R.'s equipment has increased so greatly within the last few years, that the Calgary shops are a necessity.
The following table shows the additions made to the C.P.R.'s equipment since 1886:

Locomotives	1886	1911
1st and 2nd class passenger cars and colonettes and baggage cars	304	1707
First class sleeping and dining cars	47	311
Parlor official and pay-master's cars	27	63
Freight cars and cattle cars	8,253	50,863

LITTLE WORRIES IN THE HOME

IT IS THESE THAT BRING WRINKLES AND MAKE WOMEN LOOK PREMATURELY OLD

Almost every woman at the head of a home meets daily with many little worries in her household. Some of these may be too small to notice at first, but if they are not removed, they will grow into big troubles. It is these little worries that make women look prematurely old. Their effect may be noticed in sick or nervous headaches, tight shoulders, wrinkles in the back or side, sallow complexion, and the coming of wrinkles, which every woman dreads. To these that afflicted Dr. Williams' Pink Pills—after a speedy and certain removal of the color to the cheeks, brightens the face, a healthy appetite, a sense of freedom from weariness.

Among the thousands of Canadian women who have found relief from their troubles, is Mrs. W. D. Davidson, of London, Ont., who says: "About two years ago I found myself so badly run down that it was almost impossible to perform my household duties. I fell off in flesh, was weak and very pale, had no appetite, felt constantly cold, and I further made my life miserable. I was afflicted with those other ailments from which so many women suffer. I tried many kinds of medicine, but got no benefit, and began to feel that I was slipping into chronic invalidism. I was advised to try Dr. Williams' Pink Pills, and although I felt somewhat hopeless decided to do so. To my delight, after taking the Pills a few weeks, I felt much better, and to my joy, after using them brought me back to my old time health. I have since recommended the Pills to many others, and those who have used them have always been benefited."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Two Clever Statesmen

One trial in Lord Palmerston's life illustrates the absolute good humor which may prevail even when political enmity is at its worst. Lord Derby had made an attack upon him in the Upper House with such energy and eloquence that the odds against him seemed overwhelming. But he defended himself and his policy from the dusk of one day to the dawn of another which such tact, dexterity and force of appeal to the national sense of honor that he was acquitted of all blame by a majority of fourscore.

Next day in passing through the corridor leading from the ante-room to the Upper House one swing door opened to his hand and at the same moment the other to that of Lord Derby. They were opponents, but they were also manly and sweet-natured men. They smiled.

"I was just thinking," said Palmerston, "what clever fellow he was who so nearly put me in a hole."
"Ah," was the rejoinder, "but nothing like the cleverness of the fellow who got you out of it!"

Seven Miles Down.

A travelling man who drove across the country to a little town in Western Kansas, the other day, met a farmer hauling a wagon-load of water. "Where do you get water?" he asked.

"Up the road about seven miles," the farmer replied.
"And so you haul water seven miles for your family and stock?"
"Yep."

"Why in the name of sense don't you dig a well?" asked the traveller.
"Because it's just as far one way as the other, stranger."—Argonaut.

Miss Elder—"You fancy yourself very clever, I dare say; but I could give you a wringer of two."
Miss Younger—"No doubt you could—and never miss them."

Dad—"James, where have you been all afternoon?" James—"Heen looking at the cricket match through a knothole in the fence." Dad—"You have, have you? Er—where is that knothole?"

Hope is the cheapest and at the same time the most precious thing in the world.

Energy Saved
"Are you going to start a garden next year?"
"I am not," replied the luckless amateur. "Next year, instead of burying good stuff, I'm going to eat it."

The Foe of Indigestion—Indigestion is a common ailment and few are free from it. It is a most distressing complaint and often the suffering attending it is most severe. The very best remedy is Parmenter's Vegetable Pills taken according to directions. They rectify the irregular action of the stomach and restore healthy action. For many years they have been a standard remedy for dyspepsia and indigestion and are highly esteemed for their qualities.

Mother has Trouble Enough, Child!—"Ma, this egg is bad."
"That's all right, you eat it anyhow. Do you suppose I am going to lay forty cents a dozen for eggs and have them wasted?"

TO CURE A GOLD IN ONE DAY
Take LAXATIVE BROMO Quinine Tablets. Remember—Don't forget to cure. E. W. GROVER'S signature is on each box.

"Did you ever play in Hamlet?" Inquired a theatrical manager of a recent acquisition to his company.
"Ever," exclaimed the newcomer. "Why, I've played in every hamlet between here and Niagara, Nebraska."

Minard's Liniment cures garget in cows
"Now," said the warden to the forger, who had just arrived at the prison, "I'll ask you to work. What can you do best?"
"Well, if you'll give me a week's practice on your signature, I'll sign your official papers for you."

A Paskey
"Do you know of any good remedy for a deacon?"
"I should suggest a key to the situation."

Minard's Liniment, Cures Diphtheria
The poor imitate the rich and get poorer; the rich imitate the poor and get richer.—New York Press.

LITTLE WORRIES IN THE HOME

The Shah's Kitchen

Who keeps the costliest kitchen in the world? Not as one might imagine, the American millionaire, but the Shah of Persia. The utensils, fittings and furnishings of the Shah's table are worth \$530,000. Every saucepan is gilded inside, and the dishes appearing on his table are of solid gold, as well as the spoons, knives and forks, the handles of which are besides ornamented with precious stones. Moreover, the chef, in preparing dishes for the Shah's table, must use none but silver spoons and forks, and any dish on which he puts cold viands to keep them must be also of silver and gilded inside. The Spanish royal kitchen is also an expensive establishment. The saucepans in which the food for the royal table is prepared are said to be worth \$100,000, while the value of the utensils used for the royal children is put at \$2,000, every saucepan being inlaid with gold, on the ground of this being necessary for the children's health.

Rose Petal Sachets

Rose petal sachets are to be found scattered among the fingerings and linings of the linen closet. They make these delicious little whiffs of fragrance at home and by using them liberally dispense with all perfumes and artificial odors.
To make them, spread the rose leaves on a tray and expose them to the sunlight or warm air until they are dry. Then lightly crumple them up small in the hand, and add a few odoriferous ingredients such as cardamom, orris root and mace, and a bit of the essential oil of roses. Place the ingredients in white muslin sachets flowered with pink rose buds.

The pessimist continually grows for what he can get and what he does get.

MOONEY'S BISCUITS

ONE TIRED WOMAN AND ONE LITTLE OVEN

You have probably been there yourself—perhaps are right now. Bright women all over Canada are getting away from this. They welcome **MOONEY'S BISCUITS** as a most acceptable substitute for their own bread and biscuits.

MOONEY'S PERFECTION SODA BISCUITS

are the crispest, creamiest crackers made. Better still, they are baked in Winnipeg; right at your very doors. They come to you fresh as the product of your own oven.

You can have them in air-tight packages or sealed tins as you prefer.

LET MOONEY DO IT

For a Lecture

"The object of the average explorer seems to be to acquire enough material for a lecture."
"Yes, that is my wife's aim when she explores my pockets."

A Bonanza

First Starving Author.—What would you do, old man, if you could get 5 cents a word for your stuff?
Second Starving Author.—That's easy. I'd write a dictionary.

The Very Simple Boy

A rather simple-looking lad halted before a blacksmith's shop on his way home from school and eyed the doings of the proprietor with much interest. The brawny smith, disinterested with the boy's curiosity, held a piece of red-hot iron suddenly under the youngster's nose, hoping to make him beat a hasty retreat.

"If you'll give me half a dollar I'll lick it," said the lad.
The smith took from his pocket half a dollar and held it out.
The simple-looking youngster took the coin, licked it, dropped it in his pocket and slowly walked away whistling.—Sunday Magazine.

The most abused word in the English language is "guaranteed."

Shiloh's Cure

Bierliof has built for Henri Deutch de le Meurthe a veritable aerial taxicab. The machine has a body which looks for all the world like that of a taxicab. The passengers enter by a side door and view the landscape below through miles window. Pneumatic cushions protect the passengers in case of landings. The pilot sits in front of the machine like a true chauffeur, and controls the machine with regular steering wheel and foot pedal.

The devil seldom wastes any time trying to tempt the busy man.

Many speculators become bears after they have gone broke as bulls.

Happenings in and Around Frank

Messrs. Guillaume Evans and R. Griffiths, of Lille, were registered at the Imperial on Saturday night.

Mr. and Mrs. Geo. Miller, who have lived here for some time, moved to Blairmore on Monday.

J. Harrington, of the Union bank staff here, is to be moved to the Blairmore branch of that bank.

W. McD. Tait, representing the Lethbridge Daily Herald, was in town for a short time on Monday.

Messrs. McDonald and Perry also Miss Rogers, of Bellevue, attended the carnival here on Monday night.

The sidewalks are greatly improved by having the snow cleared off, a little light on the subject will make a vast change.

The Frank boys hockey team went up to Blairmore on Saturday and got trounced 7-3 by the boys of that town.

Rev. Geo. Edwards, of Livingstone, preached in Knox Methodist church on Sunday in the absence of Rev. W. F. Young who held the missionary anniversary at Bellevue.

Solentary habits, lack of outdoor exercise, insufficient ventilation of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

A. A. Muller returned from France on Monday evening. Mr. Muller has resigned as general manager of the Canadian Coal Consolidated, Ltd., and is now president of the Keystone Portland Cement Co.

Don't forget the basket social to be held in the school hall on Feb. 22nd. Tickets are on sale now, adults 50 cents, under 14 years of age 25 cents, those who bring baskets, free. Prizes are being arranged for the prettiest and most original baskets, an entertaining programme is also being arranged.

A movement is on foot for the establishment of a branch of the Sons of England Benefit Society in Frank, and already about fifty persons have signified their willingness of becoming members of the new lodge. For some time past there has been a general desire amongst English descendants throughout The Pass that a branch of this institution be established at some central point, and no doubt the new lodge at Frank will very shortly become a great benefaction. Anyone desirous of having themselves enlisted as charter members will do well to communicate with W. J. Bartlett at Blairmore, and J. W. Gresham, at Frank, who will be glad to furnish them with the necessary information as well as medical certificates which will have to be filled out by the nearest medical practitioner.

The big fancy dress carnival was pulled off on Monday night at Frank rink, a large number were on the ice representing in their costumes almost anything imaginable, there were also a lot of the town people looking on. The first prize for the prettiest ladies dress was won by Miss B. Evans, of Lille, who represented an angel. The prize for the gent's comic dress was won by Mr. Saville, better known as "Butch". The best boys' dress was won by Edgar Thomas and G. Evans who represented the gold dust twins. Best child was won by J. Wilcox in his

Presentation to Mr. and Mrs. J. S. Murray

At the meeting of the Young Peoples Guild on Monday evening last an address and presentation were made to Mr. and Mrs. J. S. Murray, who have recently moved from Blairmore to Bellevue where Mr. Murray is conducting a hardware business. The presentation consisted of a cut glass cream jar and a sugar bowl. The members of the different societies of the Presbyterian church greatly regret that Mr. and Mrs. Murray have moved from Blairmore, these societies of their past activities and it is the wish of their many friends at Blairmore that they will find much happiness and prosperity in their new home. Following is the address:

MR. AND MRS. J. S. MURRAY:
It is with real regret that we have heard of your removal from our midst, and feel that we cannot allow you to go without some expression of our appreciation.

As first president of Ladies Aid Society, you, Mrs. Murray, were always willing to lead and assist in all the duties that such office involved; in the choir you willingly rendered invaluable service. We have appreciated your presence in every activity of the church and in losing you we recognise that we are losing one of our most valued members.

And you, Mr. Murray, were largely instrumental in placing this congregation in the position that it now occupies, through your untiring efforts it has passed from a Mission Field to that of an Augmented Charge. We recognise some of the difficulties that a treasurer of a new congregation and especially in a time of financial stringency, has to undergo, but we found you always ready to bear your share of responsibility, and have succeeded in placing this congregation in a condition that should secure its financial success.

We shall miss you both, and shall find it hard to fill your positions in our congregational life, but believing that your new position in Bellevue is to your own material welfare, our best wishes go with you. We shall always be interested in your welfare and all of us join in wishing God's richest blessing, wherever your future lot may be cast.

As a slight token of our esteem we ask you to accept this article as a tangible expression of our appreciation.

Signed on behalf of the congregation,

A. S. Tod, Minister
Mrs. McVicar, President of Aid
H. E. Lyon, Chairman of Mgrs.
J. G. Smith, President of Guild
H. G. Bigelow, S.S. Supr.
Blairmore Presbyterian Church
Feb. 12, 1912.

NOTICE

This is to inform the public that my wife, Marie Malderie, has left me and I will not be responsible for any debts incurred by her.

JOSEPH VERHEYDEN

Dr. de Van's Female Pills
A reliable French regular cover pills. These pills are exceedingly powerful in regulating the reproductive portion of the female system. Hence all cheap imitations. Dr. de Van's are sold at the best price for 10c. Mail to any address. The Sobell Drug Co., St. Catharines, Ont.

Indian suit The race for boys under 16 years was won by Edgar Thomas. The obstacle race by Ernest Bleis. The race for girls by Bella Steene, senior. The race for mixed doubles by Mr. Hughes and Miss McIntyre. J. Naylor tried hard to win the latter but owing to the fact that he cut several corners and then came in considerably behind the others, the judges could not give him the prize.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

Happenings in and Around Bellevue

We regret to hear of the death of Mr. and Mrs. Shearer's youngest son.

The Rev. W. H. Irwin was at Kihburn for a few days last week and preached there on Sunday last.

A meeting of the Church Ladies' Aid was held on Monday, Feb. 5th, and they decided to have a social on Feb. 27th.

The Rev. Mr. Edwards of Cowley, addressed the children of the Methodist Sunday School on Sunday afternoon last.

A meeting of the church social committee was held on Tuesday, Feb. 6, and they decided to have a Basket Social the first week in March and a concert in April. It is hoped that all ladies will rally and bring their baskets.

On Sunday afternoon Mr. Christie read three chapters of the book "War What For," in the Socialist hall, the chair was taken by Mr. G. Bateman. Another three chapters will be read next week, when the chair will be taken by the Rev. W. H. Irwin.

Last Sunday was Missionary Sunday in connection with the Methodist church. The preacher for Bellevue was the Rev. Young of Frank, who preached a good and intellectual sermon to a good congregation. The preacher for next Sunday will be the Rev. W. H. Irwin.

A general meeting was held at the Southern Hotel on Sunday night last in connection with the Bellevue football club. Not much business was gone through and it was left to the committee to decide what competitions they should join in the coming season. The meeting was presided over by Mr. J. Allsop.

The concert and dance in connection with the Bellevue band will be held on Monday next in the Socialist hall. A short and varied programme has been arranged and a good dance is anticipated after the concert. It is hoped that all who can will make it convenient to be there and help to give the band their due.

At the Bellevue pool room a discussion was on the other night as to the rules of the game. One of the party said that when the ball was rolled up and went through all the pins an extra ball should be allowed. (This is in connection with five pins.) Will any person who is acquainted with the rules of the game please give us information on the same.

An Open Council

The Frank council met on Friday night with W. J. McGowan in the chair. Counsellors H. Murphy, J. Whiller and sec-treas. J. H. Farmer were present as well as a number of citizens.

The first business taken up was the matter of the report from the bacteriologist, Edmonton, re the ice supply laid in by the butcher shops and others of the town. A motion was put and carried that the council pollify the above persons that they would be allowed to use the ice providing it was kept from coming in contact with meat or other food stuffs and was not given or sold to private parties for use.

A motion was passed in favor of the Crown Nest Electric Railway on the following conditions being complied with: 1. That work of construction be commenced not later than sixteen months from date. 2. That part of the road be in operation

inside of two years. 3. That at least half the mud be finished in three years. 4. That it be completed in five years.

After a somewhat lengthy discussion regarding the exits and proper lighting of the different halls used by Moving Picture shows etc., it was moved by J. Whiller and seconded by H. Murphy that where only one exit was in use that the door must be at least five feet wide and platforms and stairs leading to the halls be provided with five foot railings, also that all lights must be turned on and off by a switch, a license fee of three dollars will also be charged for each night.

The secretary was instructed to write the coal company asking them to improve the electric light service. A committee was appointed to wait on different parties who are dumping ashes on the street and have them remove the ashes to a more suitable place.

The Council were appointed as a committee to investigate house racks of C. P. R., as they are very unsatisfactory with regard to loading and unloading cars.

Several other minor matters were discussed and put off till next meeting. Notice was given that at next meeting a motion would be introduced to ring a curfew bell every night, after which no child of certain age will be allowed out alone. The notice is given that the parents may have a chance to object if they so wish.

The meeting adjourned to meet again March 1st.
